Other

The prices only apply for shipments to/from our defined coverage area for Express Next Day. Bookings outside the defined coverage area will be charged.

Price per shipment in NOK excluding VAT as of 01.07.25

PostNord Partloads

Product Terms
Weight larger than 2.5 tonnes

Partloads is shipments that are not processed at a terminal, but forwarded directly, non-stop from sender to recipient. The shipments are usually larger than 2.5 tonnes, and can comprise part or whole shipments.

The agreement linked to the product is based on net prices adapted to the needs of the individual customer. For more information or a quote, please contact our local sales office.

If you already are a customer and have an agreement with us at Partloads, you can download your net prices at www.postnord.no.

Partloads

Partloads is dry goods forwarded as whole or part shipments direct to recipients in Norway. The shipments must have a freight calculation weight over 2.5 tonnes, and the parcels must not be larger than what can be handled with regular equipment and transportable in regular transport units. It must be possible to pick up and deliver the shipments direct with the carrier vehicle (truck, container, semi-trailer with max. height 4.2 meters). Deliveries on trucks with rear lifter by agreement. Larger parcels by agreement.

Pick-ups can be booked at Customer Service, online, via EDI or by phoning a local Partloads freight office. Pick-ups must be booked no later than 1500 the day before loading. Customers with regular pick-up service, or who have booked a pick-up, must cancel the transport no later than 1000 the same day the goods were to be picked up, unless otherwise agreed.

If PostNord shows up for pick-up that has not been cancelled, the full freight will be charged to the person who booked the pick-up. PostNord reserves the right to charge for any waiting time if the goods are not ready at the agreed pick-up time.

The forwarding is done with the transport vehicle that PostNord considers appropriate for the transport. If direct collection or delivery with a delivery truck practically possible and reloading to a truck with a rear lift is required, we reserve the right to charge for additional expense. PostNord can post-check the weight and volume and reserves the right to adjust the price according to the deviation. The loading and unloading time (including waiting time) is calculated at maximum one hour for each operation. Time over that will be charged per hour begun.

We reserve the right to make changes with respect to costs outside our control, e.g. diesel prices, electricity prices, environmental tax, road toll booth fee's, public fee's (see other additions and provisions).

Thermo

Thermo is the solution for transport of temperature-sensitive products. Thermo is usually full-load units such as semi-trailers and containers, unless shipments can be transported by special agreement.

PostNord provides thermo-transport in Norway, the Nordic region, Europe and overseas destinations partly on its own, partly using associated companies and partly with other partners.

PostNord Partloads

Product Terms

Weight larger than 2,5 tonnes

Solution

Solution is a tailor-made solution whereby we deploy earmarked transport vehicles in closed, schedule-based transport routes. Together with the customer, we develop regular routes customised according to pick-up and delivery times. The transports can be arranged for long distances or within the customer's local area. Routes can also be developed for two or more customers where this would be more cost effective for those concerned.

PostNord Solution earmarks one or more persons who, in cooperation with the customer, undertake to conduct goods-flow-analyses and solutions, recommend transport vehicles, participate in implementation at the customer's and at PostNord, administer and conduct agreements, carry out quality assurance and follow up the financial conditions.

*** Sweden: From 1. January 2024, the additional service "Heavy" is a requirement for handling parcels weighing between 20-35 kg for all parcels and products. The change does not apply to goods on their own carrier. In those cases where "Heavy" is not selected, and we weigh the parcel to a weight between 20-35 kg, there is an additional fee.

Germany: From 1. January 2025, German legislation requires that the weight of parcels over 10 kg must be specified when shipping to Germany. This applies both in the Transport EDI and in the shipping documentation. The requirement has been introduced to ensure proper handling and labeling of heavy shipments.

The prices are net per parcel from Norway to the respective countries, delivered free to the recipient, not customs cleared.

Price per shipment in NOK excluding VAT as of 01.07.25

Insurance applies to PostNord Parcel, MultiParcel, Groupage, Pallet, Post-Nord Service Point and PostNord Home Attended.

Other additions and provisions

Notification fee

If PostNord must contact the sender or recipient in order to deliver the shipment, the freight payer will be charged a notification fee. The fee is not charged for shipments to private persons.

Sender's information on weight and volume

It is the sender's duty at all times to provide the correct information about the shipment's real weight and volume. If the real weight and volume are not indicated or are incorrect, the sender will be charged a fee per shipment.

Wasted trip

If we are prevented from delivering or collecting at the agreed time, a fee will be charged for the wasted trip. See delivery/pick-up in the [User Guide](#).

Wrong address given by sender

Use of non-valid location number. If an non-valid location number is indicated on the shipment or parcel as the receiving location, the sender will be charged a fee per shipment to cover additional costs incurred by PostNord. The postal code of the post-box addresses, postal codes of the post offices and of major customers who have their own postal code (e.g. government ministries) are not valid location numbers. A valid location numbers can be obtained at www.postnord.no. We recommend stating the correct delivery address be given in letters, invoices and orders in addition to the post-office and street addresses.

Incorrect shipment - re-labelling

If a shipment has to be re-labelled, the sender will be charged with a fee. Any warehouse rent and new freight will be charged additionally. Goods that are turned away will be returned to the sender after 14 days for the sender's own expense and risk.

Incorrect barcode

If the barcode is illegible or incomplete, PostNord will produce a new bar code for a fee.

Pick-up fee

For pick-up commissions of a total freight calculation weight below 100 kg, each customer number is charged an additional fee.

Freight payable by the sender

Freight for shipments to plants, construction sites, vessels, private persons, recipients with unmanned business address etc. shall be charged to the sender. The same applies to failure to check off box 28 in the Partloads note or corresponding box in the EDI notification.

Heavy

Sweden: From 1. January 2024, the additional service "Heavy" is a requirement for handling parcels weighing between 20-35 kg for all parcels and products. The change does not apply to goods on their own carrier. Sender must mark the parcel with "Heavy" on at least 3 sides of the goods. In those cases where "Heavy" is not selected, and we weigh the parcel to a weight between 20-35 kg, there is an additional fee.

No EDI transfer

A fee will be charged for shipments where the EDI information has not been received as agreed.

Storage rental

For goods that cannot be delivered or collected within 3 days (not counting Saturday, Sunday and public holidays) after notification that the goods have been received, a storage rental fee will be charged. The storage rent accrues as of the 4th day.

Other additions and provisions

Extraordinary costs

PostNord reserves the right to charge the customer for extraordinary costs which PostNord cannot influence from the time the cost incurred. Examples of such costs can be (but not limited to) detours as a result of roadworks, ferry stoppages, train stoppages, force majeure, pandemics or the like which require changes to our normal production. Such an addition will normally be calculated as a percentage increase in the price and it can be introduced immediately. The surcharge is added to road and rail toll. PostNord must notify the customer of such an increase, this is normally done by as an announcement on our website.

Return of empty packaging, Groupage

The freight charge for returning empty packaging and other loading accessories to the original product supplier is 50% of normal freight price. The usual measurement and weight rules apply. Enter in the transport document/EDI: "Return of empty packaging, arriving on shipment no. (XXX) via PostNord".

Shipment number

Shipments with incorrect or reused shipment numbers will be charged with a fee. A new shipment number will be generated by PostNord.

Groupage/Special freight

A surcharge is calculated for shipments in the category General Cargo/Special Freight.

Value Added Tax

Our prices and fees are quoted without VAT. For cash payment, VAT is stated in the transport document/delivery overview. For credit, VAT is stated in the invoice.

Multi-parcel surcharge

The following surcharges are added for general cargo shipments with a high number of parcels: 7 to 12 parcels and 13 parcels and more.

Delivery outside core areas

Distribution of parcel under 35 kg outside of core areas, is charged with a fee per parcel. Core areas, see www.postnord.no.

Exchange of Euro pallets

Certified Euro pallets are exchanged (returned to the goods sender) provided that:

- The exchange is documented with a numbered pallet receipt. Other documentation is not accepted.
- The goods sender is charged for part of the pallet exchange expenses. The service charges per exchanged Euro pallet.

Pallet exchanges are invoiced continuously based on pallet receipts. Pallet debt is settled upon returning the pallets, unless another form of settlement is agreed between the parties.

Non-exchangeable pallets

Euro pallets that are secured to the load by straps, plastic or similar, and clearly marked with a red sticker reading "Non-returnable pallet", will not be exchanged. The pallet is then a matter between the goods sender and the goods recipient. The goods sender cannot bill the goods recipient for the pallet unless the pallet is secured and labelled as described above.

The sticker that is used is the same as that used by the major transport operators and can be purchased at our terminals. A roll of 1000 stickers costs NOK 428. See separate folder describing this arrangement

Other additions and provisions

Price changes

We reserve the right to adjust our freight rates, fees and additional-service charges without further notice. However, to the extent it is practically possible, we will inform about the changes that have been made.

Fuel surcharge

Based on price developments for fuel and electricity, a variable surcharge is calculated and adjusted monthly. The fuel surcharge is one fixed addition on our website.

Road tolls

As of October 1st 2017 the surcharge for road tolls became variable. In accordance with the development of the toll and ferry index prepared by Statistics Norway, the surcharge will be adjusted monthly. More information can be found on our website.

Currency surcharge

For cross-border traffic, a variable currency surcharge is calculated. The surcharge is normally adjusted monthly. In exceptional situations, currency surcharges can be adjusted immediately. PostNord shall notify the customer of such an increase, this is normally done by an announcement on PostNord's website.

Insurance

Insurance is ordered via EDI or via our Portal.

Freight calculation

Freight calculated is based on weight and the freight zone between the place zones in mainland Norway for the sender's and recipient's delivery address/location number, respectively, with possible surcharge.

The freight calculation weight

The freight calculation weight for one parcel is its real weight (rounded upward to the next whole kilo) though with at least 1 kg per 3.5 dm³ (Parcel and Groupage) or 1 kg per 3.0 dm³ (Partloads/Fulloads). The volume/cubic measurement is calculated by the parcel's greatest length, width and height.

Example Groupage:

Real weight: 86 kg. Measurements: h. 44 cm, b. 75 cm, l. 110 cm
(0,44 m x 0,75 m x 1,10 m) = 363 dm³ 363 dm³ / 3,5 = 104,
i.e. 104 kg calculated freight weight.

If the goods are of such a nature (e.g. machines, appliances) that nothing can be loaded beside them or on top of them, or that the goods in question might damage other goods, they will be freight calculated according to load metres. One load meter is 2000 kg for Groupage and Partloads/Fulloads. Load metres are stated in metres with one decimal point.

Freight calculation weights above 1000 kg are rounded up to the nearest 100 kg (per shipment). When freight-calculating goods strapped or shrink-wrapped onto a pallet, whether a non-returnable pallet or a Euro pallet, the shipment's measurements and weight including the pallet's measurements and weight shall be used. Minimum calculation weight per pallet (general cargo only) is 200 kg.

Freight calculation for Parcel and Groupage is calculated for each individual parcel and added together. Partloads: The weights are rounded upward to the nearest 100 kg. The maximum freight in a weight group is always the minimum freight in the next weight group. One load meter is calculated as 2000 kg (1 Euro pallet = 0.4 load meters = 800 kg).

Invoicing

Invoice inquiries

Inquiries about invoices, payments, payment reminder etc. can be directed to the Central Credit Department at:

e-mail: faktura@postnord.com, phone: 987 09 300. Invoice complaints must be made at the latest 10 days after the invoice date.

Account/Invoicing

PostNord normally invoices freight in weekly, collective invoices. Separate invoices are sent for outgoing and incoming loads in domestic shipment on each customer number. An invoicing fee is charged.

Electronic Invoices

We offer electronic invoicing for Parcel and General Cargo. Electronic invoices contain the same information as paper invoices. Electronic invoices can be transferred via various communication solutions

Payment terms

Net amount within 10 days. Delayed payments are always charged with the current penalty interest.

Reminder fee

Overdue invoice payments are charged a fee per reminder. The amount is 10% of the payment collection rate as adjusted annually by the Norwegian Ministry of Justice. See also www.postnord.no.

Re-Invoicing

If the recipient is charged for freight due to incorrect instructions on the consignment note or EDI notification, the matter is to be settled directly between the recipient and sender. For re-invoicing done by PostNord, whoever pays for the transport will be charged a re-invoicing fee. See «[General surcharges](#)» page 30.

Invoicing fee

When invoicing, an invoicing fee is calculated. See «[General surcharges](#)» page 30.

Recipient as freight payer

For shipments where the freight is paid by the recipient, there is a fixed surcharge. See «[General surcharges](#)» page 30.

Invoicing of third parties

An invoicing fee is calculated per shipment. The service assumes an agreement between the customer and PostNord on invoicing a third party. See «[General surcharges](#)» page 30.
