Partloads

Partloads is shipments that are not processed at a terminal, but forwarded directly, non-stop from sender to recipient. The shipments are usually larger than 2.5 tonnes, and can comprise part or whole shipments.

The agreement linked to the product is based on net prices adapted to the needs of the individual customer. For more information or a quote, please contact our local sales office.

If you already are a customer and have an agreement with us at Partloads, you can download your net prices at www.postnord.no

Partloads

Partloads is dry goods forwarded as whole or part shipments direct to recipients in Norway. The shipments must have a freight calculation weight over 2.5 tonnes, and the parcels must not be larger than what can be handled with regular equipment and transportable in regular transport units. It must be possible to pick up and deliver the shipments direct with the carrier vehicle (truck, container, semi-trailer with max. height 4.2 metres). Deliveries on trucks with rear lifter by agreement. Larger parcels by agreement.

Thermo

Thermo is the solution for transport of temperature-sensitive products. Thermo is usually full-load units such as semi-trailers and containers, unless shipments can be transported by special agreement. PostNord provides thermo-transport in Norway, the Nordic region, Europe and overseas destinations partly on its own, partly using associated companies and partly with other partners.

Project

Project is a tailor-made solution whereby we deploy earmarked transport vehicles in closed, schedule-based transport routes.

Together with the customer, we develop regular routes customised according to pick-up and delivery times. The transports can be arranged for long distances or within the customer's local area. Routes can also be developed for two or more customers where this would be more cost effective for those concerned. Project division earmarks one or more persons who, in cooperation with the customer, undertake to conduct goods-flow-analyses and solutions, recommend transport vehicles, participate in implementation at the customer's and at PostNord, administer and conduct agreements, carry out quality assurance and follow up the financial conditions.

Freight Calculation

Freight calculation

Freight calculated is based on weight and the freight zone between the place zones in mainland Norway for the sender's and recipient's delivery address/location number, respectively, with possible surcharge.

The freight calculation weight

The freight calculation weight for one parcel is its real weight (rounded upward to the next whole kilo) though with at least 1 kg per 3.5 dm³ (Parcel and Groupage) or 1 kg per 3.0 dm³ (Partloads/Fulloads). The volume/cubic measurement is calculated by the parcel's greatest length, width and height.

Example Groupage

Real weight: 86 kg. Measurements: h. 44 cm, w. 75 cm, l. 110 cm (0.44 m × 0.75 m × 1.10 m) = 363 dm³ 363 dm³/3.5 = 104, i.e. 104 kg calculated freight weight.

If the goods are of such a nature (e.g. machines, appliances) that nothing can be loaded beside them or on top of them, or that the goods in question might damage other goods, they will be freight calculated according to load metres. One load meter is 2000 kg for Groupage and Partloads/Fulloads. Load metres are stated in metres with one decimal point.

Freight calculation weights above 1000 kg are rounded up to the nearest 100 kg (per shipment). When freight-calculating goods strapped or shrink-wrapped onto a pallet, whether a non-returnable pallet or a Euro pallet, the shipment's measurements and weight including the pallet's measurements and weight shall be used. Minimum calculation weight per pallet (general cargo only) is 200 kg.

Freight calculation for Parcel and Groupage is calculated for each individual parcel and added together.

Partloads: The weights are rounded upward to the nearest 100 kg.

The maximum freight in a weight group is always the minimum freight in the next weight group.

One load metre is calculated as 2000 kg (1 Euro pallet = 0.4 load metres = 800 kg).

Reminder fee

Overdue invoice payments are charged a fee per reminder. The amount is 10% of the payment-collection rate as adjusted annually by the Norwegian Ministry of Justice. See also www.postnord.no.

Re-invoicing

If the recipient is charged for freight due to incorrect instructions on the consignment note or EDI notification, the matter is to be settled directly between the recipient and sender. For re-invoicing done by PostNord, whoever pays for the transport will be charged a re-invoicing fee of NOK 344.

Invoicing fee

The invoicing fee is NOK 173.

Recipient as freight payer

For shipments where the freight is paid by the recipient, there is a fixed surcharge of NOK 296 per shipment.

Invoicing of third parties

The invoicing fee is NOK 344 per shipment. The service assumes an agreement between the customer and PostNord on invoicing a third party.

Other additions and provisions

Use of special equipment or helper for pick-up and delivery

If the goods or collection/delivery conditions are such that special equipment or an extra helper is required, an additional hourly fee will be charged. The surcharge is calculated for at least 1 hour. Further information can be obtained at the PostNord division that will be carrying out the assignment.

Wrong address given by sender

Use of non-valid location number

If an non-valid location number is indicated on the shipment or parcel as the receiving location, the sender will be charged a fee of NOK 78 per shipment to cover additional costs incurred by PostNord. The postal code of the post-box-addresses, postal codes of the post offices and of major customers who have their own postal code (e.g. government ministries) are not valid location numbers. A valid location numbers can be obtained at www.postnord.no. We recommend stating the correct delivery address be given in letters, invoices and orders in addition to the post-office and street addresses.

Incorrect shipment - re-labelling

If a shipment has to be re-labelled, the sender will be charged NOK 143 per shipment plus NOK 21 per item. Any warehouse rent and new freight will be charged additionally. Goods that are turned away will be returned to the sender after 14 days for the sender's own expense and risk.

Incorrect barcode

If the barcode is illegible or incomplete, PostNord will produce a new bar code for a fee of NOK 21.

Pick-up fee

For pick-up commissions of a total freight calculation weight below 100 kg, each customer number is charged an additional fee

0 - 50 kg	NOK 325
51 - 100 kg	NOK 231

Pick-up

The sender must inform whether he is booking a Partloads shipment (domestic or export) or parcels/Groupage. Partloads shipments will (normally) be picked up with a Partloads truck for direct transport. If the sender sends a Partloads shipment with a parcels/Groupage truck without an agreement, the goods will be freight calculated as Groupage. The minimum freight calculation weight for Partloads is 2500 kg. PostNord offers both regular and booked pickup.

Regular pick-up Parcel and Groupage

Customers with agreed regular pick-ups must notify PostNord's local driving division the day before if the customer does not have any goods to be picked up. There is a charge of NOK 703 for any "wasted trips". The fee will be charged to those who have ordered the pick-up. PostNord reserves the right to charge for any waiting time if the goods are not ready at the agreed time.

Booked pick-up Parcel and Groupage

Booked pick-up DPD and Groupage Booked pick-up means that the pick-up must be booked in each case. The pick-up is booked via www.postnord.no or by contacting our Customer Centre at phone: (+47) 987 09300. Usually, PostNord requires that the pick-up is booked before 0900 for pick-up the same day. To the extent it is possible, pick-ups booked before 1100 will be made the same day. Pickup bookings placed after that hour will be effectuated the same day if there is available capacity. An additional fee of NOK 703 is charged for same-day pick-ups booked after 1100. The customer will be charged NOK 651 for any "wasted trip".

Pick-up Partloads

Pick-ups can be booked at Customer Service, online, via EDI or by phoning a local Partloads freight office. Pick-ups must be booked no later than 1500 the day before loading. Customers with regular pick-up service, or who have booked a pick-up, must cancel the transport no later than 1000 the same day the goods were to be picked up, unless otherwise agreed. If PostNord shows up for pick-up that has not been cancelled, the full freight will be charged to the person who booked the pick-up. PostNord reserves the right to charge for any waiting time if the goods are not ready at the agreed pick-up time.

Other additions and provisions

Freight payable by the sender

Freight for shipments to plants, construction sites, vessels, private persons, recipients with unmanned business address etc. shall be charged to the sender. The same applies to failure to check off box 28 in the Partloads note or corresponding box in the EDI notification.

No EDI transfer

A fee of NOK 130 will be charged for shipments where the EDI information has not been received as agreed.

Storage rental

For goods that cannot be delivered or collected within 3 days (not counting Saturday, Sunday and public holidays) after notification that the goods have been received, a storage rental fee will be charged. The storage rent accrues as of the 4th day.

The storage rent is calculated as follows:

The shipment's freight calculation weight	Per day from the 4th day after notification
1 - 25 kg	NOK 64
26 - 50 kg	NOK 89
51 - 100 kg	NOK 153
101 - 500 kg	NOK 457
501 - 1000 kg	NOK 615
1001 - 2000 kg	NOK 923
2001 - 3000 kg	NOK 1 536
3001 - 4000 kg	NOK 1 913
4001 - 5000 kg	NOK 2 401
	per shipment
Over 5000 kg	NOK 457 per 1000 kg

Minimum storage rent: NOK 186

Price changes

We reserve the right to adjust our freight rates, fees and additional-service charges without further notice. However, to the extent it is practically possible, we will inform about the changes that have been made.

Extraordinary costs

PostNord reserves the right to charge the customer for extraordinary costs that PostNord cannot influence from the time the costs occurs. Examples of such costs may be (but not limited to) detours due to roadworks, ferry stops, train stops, force majeure, pandemics etc, that require change in our normal production.

Such an addition will normally be calculated as a percentage increase in the price and it can be introduced immediately. PostNord shall notify the customer of such an increase, normally by an announcement on PostNord's website.

Return of empty packaging Groupage

The freight charge for returning empty packaging and other loading accessories to the original product supplier is 50% of normal freight price. The usual measurement and weight rules apply. Enter in the transport document/EDI: "Return of empty packaging, arriving on shipment no. (XXX) via PostNord".

Shipment number

Shipments with incorrect or reused shipment numbers will be charged NOK 1 009 each. A new shipment number will be generated by PostNord.

Partloads-general provisions

- The forwarding is done with the transport vehicle that PostNord considers appropriate for the transport.
- If direct collection or delivery with a delivery truck practically possible and reloading to a truck with a rear lift is required, we reserve the right to charge for additional expense. The additional fee for a rear-lift truck is NOK 1 028 per tonne. Minimum NOK 1 028.
- PostNord can post-check the weight and volume and reserves the right to adjust the price according to the deviation.
- The loading and unloading time (including waiting time) is calculated at maximum one hour for each operation. Time over that will be charged per hour begun, at NOK 1 546.

We reserve the right to make changes with respect to costs outside our control, e.g. diesel prices, electricity prices, environmental tax, road toll booth fees, public fees (see Price changes).

Other additions and provisions

Delivery at special hours

Usually deliveries are made between 0800 and 1600, with certain local adjustments. For delivery to private recipients, see the separate section. Deliveries before, after or between certain hours must be arranged with the driving office at the reception terminal. Such special-hour deliveries carry an additional fee.

Delivery outside core areas

Distribution of parcel under 35 kg outside of core areas, is charged with a fee of NOK 33 per parcel.

Exchange of Euro pallets

Two alternative schemes are offered for the exchange of Euro pallets.

Exchange

Certified Euro pallets are exchanged (returned to the goods sender) provided that:

- The exchange is documented with a numbered pallet receipt. Other documentation is not accepted.
- The goods sender is charged for part of the palletexchange expenses. The service costs NOK 54 per exchanged Euro pallet.

Pallet exchanges are invoiced continuously based on pallet receipts. Pallet debt is settled upon returning the pallets, unless another form of settlement is agreed between the parties.

Non-exchangeable pallets

Euro pallets that are secured to the load by straps, plastic or similar, and clearly marked with a red sticker reading "Non-returnable pallet", will not be exchanged. The pallet is then a matter between the goods sender and the goods recipient. The goods sender cannot bill the goods recipient for the pallet unless the pallet is secured and labelled as described above. The sticker that is used is the same as that used by the major transport operators and can be purchased at our terminals. A roll of 1000 stickers costs NOK 384.

See separate folder describing this arrangement.

Fuel Surcharge

Based on price developments for fuel and electricity, a variable surcharge is calculated and adjusted monthly. The fuel surcharge is one fixed addition on our website.

Road tolls

As of October 1st 2017 the surcharge for road tolls became variable. In accordance with the development of the toll and ferry index prepared by Statistics Norway, the surcharge will be adjusted monthly.

Currency surcharge

For cross-border traffic, a variable currency surcharge is calculated. The surcharge is normally adjusted monthly.

In exceptional situations, currency surcharges can be adjusted immediately. PostNord shall notify the customer of such an increase, this is normally done by an announcement on PostNord's website.
